Coleman Hanna Vacuum Systems

# Blast-N-Vac

The **Blast-N-Vac System** allows you to vacuum your vehicle as well as blast water from mirrors, door crevices, wheels and engine compartments. You can also blast clean floor mats, carpets, air vents and those hard to reach areas that a vacuum just cannot get to.

## Standard Features:

- Round body style
- 18 gauge stainless steel construction
- Dual access doors
- Recessed high security coin box
- Electronic coin acceptor - one type coin only
- Three filter bag system for maximum efficiency
- 2 - 1.6 HP vacuum motors
- 1 - High velocity blower motor
- 2" X 15' vacuum hose with upholstery tool
- 1.5" X 15' blower hose with cone nozzle
- **Optional:** multi-coin acceptor, note acceptor, and custom graphic decals

Blast away dirt from mirror, air vents, engines, window crevices, and other hard to reach places.

- One case of shampoo

# Vacuum Islands

**Stainless Vacuum Islands** are very popular at today's car wash. They are attractive in design and color and are quick and easy to install. Typical masonry vacuum bases can be costly and time consuming to construct. **Stainless steel vacuum islands** arrive at your wash site ready to bolt down and cap off with concrete. Vacuum anchor bolts, trash can holder, and awning pole receptacles are set in precise position. You can choose between different combination units, single or double vacuum, decal design, awning and lettering color, trash can cover style and vending options. Custom designed to fit your location, **stainless vacuum islands** make it easier to get even more profits from your wash.

Coleman Hanna Self Serve

Super Saver

# Central Vacuum System

Easily provide multiple vacuum stations with one central system with the Coleman Hanna Central Vacuum System. This central vacuum system provides ease of use with only one central location to service. The central vacuum system is ideal for locations with free vacuums such as full service and express tunnels.

Our improved producer has larger bearings with an optional 25 HP model. Likewise, an optional vacuum gauge can be mounted on the collector to monitor the performance of the system. Lastly, the attractive and long-lasting stainless steel vacuum arches are sure to entice customers to stop.

- NEW Hanna Central Vacuum has been improved to provide longer life and better performance.
- Comes with an exhaust pipe to easily install a muffler if needed or desired
- Heavy Duty Bearings and 1-1/4" shaft, larger than the old design
- Optional vacuum gauge can be mounted inside the collector to measure the performance of the vacuum
- Dimensions mounted producer and collector 28"x100" ( 0,72 m x 2,55 m )
- Durable Stainless Steel Parts
- 20 HP or 25 HP model available
